|--------------------------|----------|----------------|------------|
| EntityType attributes | Person | Member | Alumni |
| | id | research Topic | role |
| | name | role | University |
| | surmane | support role | endDate |
| | phone | department | |
| | position | email | |
| | | University | |

| | | |
|---------|--|--|
| legenda | | Changed name to match to the one in UKC (minimal change) |
| | | Repeated concept, to remove at the end |
| | | to decide if it need a rename, university -> universityName? and idName -> name, related topic -> research topic |
| | | EntityType, the other are attributes |

source.

- <https://ukc-datascientia.eu/concept>

relative column of this spreadsheet, together with the gloss provided by the UKC web portal too.

for example the OSM tags available here: https://wiki.openstreetmap.org/wiki/Map_features

ific concept (click on the concept word in the OSM page to access the concept specific page, and copy its link)
e too.

ry, you have to generate a new ConceptID by using the first available code (the last used +1) into the range assigned to your project (**KGE24-<#of your project>-xxxx**)
oth in english and other languages) for the new concepts (that are not available from ohter sources)

| Project | Research Products | Research Topic | University | Course |
|----------------|-------------------|----------------|------------|-------------|
| name | name | name | name | name |
| startDate | type | lead | location | description |
| endDate | year | member | | University |
| coordinator | language | projects | | teacher |
| partners | publication | | | webpage |
| member | author | | | year |
| funding | file | | | |
| Research Topic | | | | |
| keyword | | | | |
